

Water Savings Are on Tap All Year in 2024!

Celebrate the new year and practice saving water throughout 2024, by taking the “I’m for Water” pledge at www.epa.gov/watersense/im-water-pledge. To uphold that pledge, check out these simple steps each month to save water for future generations.

January 2024

- I will commit to saving water all year long by taking the [“I’m for Water” pledge](#).
- I will [learn how much water my home uses](#) each month and find new ways to save water.

February 2024

- If I am looking for a new home, I will [look for a WaterSense labeled model](#) that is more water-efficient.
- I will upgrade the look of my bathroom and downgrade my water use with [new WaterSense labeled fixtures](#).

March 2024

- For Fix a Leak Week, I will [check my water meter](#) before and after a two-hour period to see if my home has leaks.
- I will use [the Fix a Leak Week checklist](#) to chase down leaks in my home.

April 2024

- I will [spruce up my irrigation system](#) to get it ready for the warmer weather.
- I will upgrade my irrigation system with a [WaterSense labeled controller](#) to only water my landscape when needed.

May 2024

- I will [choose the right plants](#) for my landscape that are native to my area and drought-tolerant.
- I will group my new plants together by watering needs in hydrozones to [avoid over- and under-watering](#).

June 2024

- With the arrival of summer, I'll find an [irrigation pro certified by a WaterSense labeled program](#) to maximize outdoor savings.
- I will celebrate World Environment Day by learning about my utility's [water-saving programs and incentives](#).

July 2024

- During Smart Irrigation Month, I will [water my landscape wisely](#) in the morning or evening when temperatures are cooler.
- I will water smarter by trying the [cycle-and-soak](#) method to avoid overwatering.

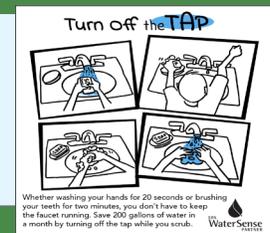

August 2024

- I will [be a H₂erO](#) this drought season and follow any watering restrictions in my area.
- If I live in an apartment, condo, or dorm, I will [follow these tips](#) to help out in a drought.

September 2024

- I will add [saving water](#) to my morning routine by turning off the tap while I brush my teeth.
- I will check my [irrigation controller](#) settings to make sure it is programmed properly as the cooler weather approaches.

October 2024

- I will Shower Better by replacing my old showerhead with a [WaterSense labeled model](#).
- For Energy Awareness Month, I will [save the energy](#) used to heat water by taking shorter showers.

November 2024

- I will test my toilet for leaks and [install a new flapper](#) if needed.
- If I need a new toilet, I will install a [WaterSense labeled model](#).

December 2024

- I will [only run my dishwasher when it is full](#) and scrape leftover food into the trash instead of using the garbage disposal.
- I will ring in the new year by [renewing my pledge](#) to save water in 2025.
